—CAPOS—

### BIOGRAPHY:

Award-winning teen singer-songwriter and multi-instrumentalist, Aspen Jacobsen has a natural gift for connecting with her audience through her introspective lyrics and emotive voice. Aspen's original work is a modern twist on Americana and Folk music. Her passion for artistic expression through performance has led her to multiple art disciplines, including professional theatre, opera, and competitive dance.

In addition to performing as a solo singer-songwriter, Aspen's musical versatility has been showcased as a member of old-time string and rock bands. In the fall of 2022, Aspen enrolled in the University of Southern California's Popular Music Program as a singer-songwriter after graduating from the Interlochen Arts Academy's High School.

Aspen's insight and intent are beyond her 18 years. She aspires to make folk music more palatable to younger audiences while continuing to carry on the tradition of writing music of the people, for the people.
